BIOGRAPHY

Kogan Silvercloud is a vibrant Personality with many Talents under his Belt. Imagine a surprising Mix of Swiss Artist, electronic Music Genius, accomplished Actor, and a Touch of senior Modeling. There you have it: Kogan Silvercloud!

Born in Switzerland, Kogan has always been passionate about Music and Art in general. From a young age, he enjoyed creating Melodies by banging pots with wooden Spoons. As the years went by, Pots turned into keyboards, and wooden Spoons gave way to DJ Turntables.

In the early 2000's, with the democratization of home studios, Kogan Silvercloud composes his first Electro Track on an old recycled Computer.

Kogan quickly made a Name for himself in the Music Industry by creating energetic and captivating tracks that won over fans of House, Deephouse, and Nu Disco. Drawing Inspiration from artists such as Kygo, Nora en Pure, Gorgon City or Pascal Junior, Kogan has managed to create a unique Sound Universe. His Tracks are available on over 250 streaming and electronic Shops, and his fans never tire of his enchanting Tunes.

But Kogan doesn't stop there! He also has a Career as an Actor and senior Model. Under his real Name, Florian Rubeli, he has appeared in several popular Television Series, such as Riviera, La Vengeance aux Yeux Clairs, Transporter, Mickey Boom, and most recently Mamals. It's safe to say that Kogan has a Taste for the Spotlight and Cameras, whether behind DJ Decks or on Film Sets.

In Summary, Kogan Silvercloud embodies versatility and Talent. Whether you're looking for a great Sound to party to, a charismatic Actor to bring your favorite TV series to life, or a senior Model to elevate your Advertising Campaigns, Kogan is the man for the job. One thing is certain, with Kogan Silvercloud, you'll never be bored!

Kogan proves every Day that life has no Age because Youth does not wear out.
